Ask Our Nutritionist

Q. I have been reading about all the benefits of creatine. Can you tell me more about this supplement?

A. Creatine is in our muscles and brain. It is produced from three amino acids: arginine, glutamine, and branch-chain amino acids (BCAAs.) Supplementation increases strength and creates lean muscle mass, thereby increasing athletic performance. In addition to the benefits to our muscles, there is ongoing research into the positive effects on our brains. It produces better cognitive ability, memory, and focus. Creatine is also an antioxidant essential in fighting free radicals, which can create degenerative diseases.

Meat and fish are the highest sources of naturally occurring creatine, so vegans and vegetarians can benefit from supplementation. Drinking plenty of water when taking creatine is important for the best results.

Our store offers a wide range of creatine supplements to suit your preferences. For those who prefer a traditional supplement, we stock Feel-Rite, Sunwarrior, Thorne, Finaflex, and Garden of Life Sport creatine powders. For those who like a more convenient option, we have Zhou Creatine Gummies.

Visit any one of our 5 Feel Rite Fresh Market locations to speak to one of our knowledgeable staff members for more information and assistance.

Stop in or call your nearest Feel Rite Fresh Market to schedule a consultation with our Nutritionist, Linda Griffin.
